**Construction facing the imperative of carbon neutrality**

**Wood is for now**

For its 10th edition, the International Wood Construction Forum will be held at the Temporary Grand Palais to carry the message of bio-based architecture in the heart of the metropolis area in the heart of the French capital. The colossal development of the bio-based construction is essential to achieve the set European goal of carbon neutrality and as the best solution to adapt built architecture and the city to the consequences of the climate shock. Finally, bio-based construction and neutrality in carbon constitutes represents a source of creativity and local activity. This is evidenced by the wooden frame of the Temporary Grand Palais, the Temporary Auditorium in Douglas CLT bent, the « Belleville » stands made of beech and poplar plywood, eco furniture made of recycled materials.

**Payment:**

Participants must register in a written form. Attendance space is limited; registrations will be processed in the order received. An invoice will be sent confirming registration. Settlement of the invoice must be received before the opening of the conference. Only cancellations in writing will be accepted. In the case of a cancellation received less than a week before the opening of the conference, 50% of the conference fee will be retained as a cancellation charge. The full conference fee is due in the case of a registered person who fails to attend the event without cancelling at least one day in advance of the conference. A substitute attendee may be nominated at any time so long as the person involved is eligible to attend and notifies the organizers of the replacement. The organizers reserve the rights to refuse access and to cancel the event with short notice. In such a case, excepting a major emergency, all payments will be reimbursed. Program subject to modifications.
